

TRAXION™

ICE MELTING COMPOUND WITH TRAXION GRIP

MELTS ICE EFFECTIVELY DOWN TO 0° F

Tri-Acting Ice Melt Formula with Traction

GUARDIAN TRAXION is a high quality ice melt that has been carefully manufactured to provide you with the best of both worlds, instantaneous traction along with an effective tri-acting de-icer that melts ice and snow down to -5 degrees F. With proper use, TRAXION is safe for concrete and vegetation with no tracking. Leaves no oily residue.

ICE MELT PRODUCTS™

PRODUCT NUMBER	PACKAGE SIZE	QUANTITY PER PALLET	UPC CODE
B49350	50# Bag	49 Bags	Not UPC Coded
B4932M	2000# Bag	1 Bulk Bag	Not UPC Coded

Directions For Use

For best results, apply at the rate of 2 - 4oz. (1/4 – 1/2 cup) per square yard evenly over surface areas to be treated. If applying after a large accumulation, it is best to plow or shovel first, then apply the ice melt product. This product may be applied prior to or during accumulation. Remove slush and water to prevent penetration of porous areas and cracks in the concrete, as continual thawing and freezing action can cause damage to poor quality concrete. To avoid potential damage to vegetation, keep product away from vegetation and do not over apply. Variable weather conditions such as temperature, depth of snow, wetness of snow, and ice content, may vary the recommended application amount.

Components

Potassium Chloride
Sodium Chloride
Calcium Chloride
Granular Limestone

CAS Number

007447-40-7
007647-14-15
010043-52-4
016389-88-1
