

# Yorkey™

## ICE MELT

Yorkey Pet Friendly Ice Melt combines the most effective de-icing components available on the market. Yorkey is gentle on pets, prevents slips and falls, and is safe on concrete, asphalt, decks, floors and patios. Yorkey quickly initiates de-icing and melts ice and snow down to zero (0) °F (-18 °C) while resisting re-freezing. Yorkey contains no salt.

**Tips from Yorkey:** Most ice melters sold by us or even our competitors, if used according to their label instructions, will not harm pets with normal use. To help insure your pets safety; always remove slush, puddles and dissolved product after it has done its work prior to allowing your pet outside. Afterwards, take a moment to wipe off your pet's paws. Your pet will thank you.

PRODUCT NUMBER	PACKAGE SIZE	QUANTITY PER PALLET	UPC CODE
B1047309	9.5# Jug	160 Jugs (40 cases)	7 26523 47309 0
B47125	25# Pail	64 Pails	7 26523 47125 6

#### Directions For Use

For best results, apply at the rate of 2 - 4oz. (1/4 – 1/2 cup) per square yard evenly over surface areas to be treated. If applying after a large accumulation, it is best to plow or shovel first, then apply product. This product may be applied prior to light snow or freezing rain to help prevent bonding of moisture to paved surfaces. Remove slush and water to prevent penetration of porous areas and cracks in the concrete, as continual thawing and freezing action can cause damage to poor quality concrete. Do not place product on or near vegetation as over-application can cause damage. Variable weather conditions such as temperature, depth of snow, wetness of snow, and ice content, may vary the recommended application amount.

**Components**  
 Potassium Chloride  
 Magnesium Chloride

**CAS Number**  
 007447-40-7
