**100% Sodium
Chloride**

**Excellent for Snow Removal on
Walkways & Driveways.**

GUARDIAN[®] ICE MELT PRODUCTS

100% Sodium Chloride

GUARDIAN De-Icing Salt is a higher quality of sodium chloride that has been carefully screened to facilitate a free flowing product that is easily scattered using a broadcast, drop, or rotary spreaders. Our unique sizing allows small crystals to melt on contact while the large crystals provide longevity and instant traction. Works best at temperatures of 5° F. and above. Leaves no oily residue.

- **Medium Crystal, excellent for snow removal.**
- **Safe for Ice Cream Machines.**

PRODUCT NUMBER	PACKAGE SIZE	QUANTITY PER PALLET	UPC CODE
B49125	25 lb Bag	100 Bags	Not UPC Coded
B49150	50 lb Bag	49 Bags	Not UPC Coded
B4912M	2000 lb Bag	1 Bulk Bag	Not UPC Coded

DIRECTIONS FOR USE

For best results, apply at the rate of 2 - 4oz. (1/4 - 1/2 cup) per square yard evenly over surface areas to be treated. If applying after a large accumulation, it is best to plow or shovel first, then apply product. This product may be applied prior to light snow or freezing rain to help prevent bonding of moisture to paved surfaces. Remove slush and water to prevent penetration of porous areas and cracks in the concrete, as continual thawing and freezing action can cause damage to poor quality concrete. Do not place product on or near vegetation as over-application can cause damage. Variable weather conditions such as temperature, depth of snow, wetness of snow, and ice content, may vary the recommended application amount.
