# Agricultural Fertilizer

## THE GROUNDWORK FOR YOUR SUCCESS

In 1966, over 50 years ago, Mears Fertilizer, Inc. started out as a fertilizer dealer serving the needs of farmers. Today, though we are no longer a fertilizer dealer, we have a unique understanding of the daily challenges agricultural fertilizer dealers face, while providing quality products and services to their customers.

With new process technology and ongoing innovations, we have kept up with the changes in the agricultural industry. We apply our expertise to every formulation, providing you with the highest quality products and customized service you deserve. Our role in the industry has changed, but our priority of meeting your needs has remained the same.
