

PROFESSIONAL TURF FERTILIZER **THRIVE™** ENDURANCE

Thrive Endurance is a powerful solution for the pre-emergence control of both grass and broadleaf weeds in various settings, including lawns and ornamental turf (excluding golf course putting greens), as well as landscape ornamentals, established perennials, and wildflower plantings. This product is particularly effective in preventing the emergence of problematic weeds such as crabgrass, annual bluegrass, and foxtail.

The active ingredient in Thrive Endurance is Prodiamine, which serves as the key component in achieving effective weed management for a healthier and more vibrant landscape.
